PROFESSIONAL SUMMARY

Full Stack Developer specializing in JavaScript ecosystem with hands-on experience building scalable web applications. Proficient in React, Node.js, and modern development workflows including Docker and Kubernetes. Demonstrated ability to deliver production-ready solutions through multiple internships and technical projects.

EDUCATION

Dr. Babasaheb Ambedkar Marathwada University   Aurangabad, Maharashtra
Bachelor of Computer Applications (BCA), Computer Science   *June 2023 – June 2026*
- Relevant Coursework: Data Structures, Algorithms, Database Management, Web Technologies, Software Engineering
- Current GPA: 7.8

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3, SQL, Python (familiar)
Frontend: React.js, Bootstrap, Responsive Design, Material-UI, Tailwind CSS
Backend: Node.js, Express.js, RESTful APIs, Web APIs, Authentication (JWT)
Databases: MongoDB, MySQL, PostgreSQL, Database Design
DevOps & Tools: Docker, Kubernetes, Git, GitHub, CI/CD, Linux, npm/yarn
Concepts: MERN Stack, Microservices, Agile/Scrum, Test-Driven Development, Version Control

PROFESSIONAL EXPERIENCE

Web Developer Intern   February 2025 – April 2025
Zidio Development   *Bengaluru, Karnataka*
- Developed and deployed full-stack web applications using MERN stack, serving XX+ concurrent users
- Implemented responsive UI components with React.js and Bootstrap, improving mobile user experience by XX%
- Built RESTful APIs using Node.js and Express.js, integrating MongoDB for efficient data management

Web Developer Intern   September 2024 – April 2025
CodSoft   *Remote, India*
- Engineered modern web interfaces using HTML5, CSS3, and JavaScript, achieving XX% faster page load times
- Designed and implemented responsive layouts with Bootstrap framework for seamless cross-device compatibility
- Integrated third-party APIs and services to enhance application functionality and user engagement

Campus Ambassador   July 2024 – April 2025
Indian Institute of Technology, Bombay   *Maharashtra, India*
- Promoted technical workshops and events, increasing student participation by XX% across XX+ events
- Coordinated with IIT Bombay faculty to organize coding bootcamps and hackathons for 200+ students
- Led peer learning sessions on emerging technologies including AI tools and modern development practices

TECHNICAL PROJECTS

Wanderlust – Vacation Rental Platform | *React, Node.js, MongoDB, Express, Stripe API*   2025
- Developed a full-stack vacation rental platform with user authentication, property listings, and booking management
- Implemented search, filters, wishlist, and real-time availability checks for seamless user experience
- Deployed on cloud platform with Docker containers, enabling scalable performance and achieving 99% uptime

Portfolio Website | *HTML, Tailwind CSS,*   2024
- Created responsive portfolio showcasing projects with modern UI/UX principles and animations
- Integrated contact form with backend validation and email notifications using Firebase Functions

CERTIFICATIONS & TRAINING

AI Tools and ChatGPT Workshop – Learned practical applications of AI in software development
Deloitte Technology Job Simulation – Completed hands-on technology consulting simulation
Software Development Fundamentals – Comprehensive training in SDLC and best practices
SQL Certification – Advanced database querying and optimization techniques
